SCENES FROM NJACP 2018 CONFERENCE
A Message from the CEO…

Dear Friend of NJACP,

The New Jersey Association of Community Providers (NJ ACP) believes it is more important than ever to represent and advocate for our 50+ member agencies and others that serve our neighbors, family and friends living with intellectual and developmental disabilities. These agencies are dedicated to advancing community-based services that enrich the lives and builds futures for their clients — those with intellectual, developmental and other disabilities. As policies governing these agencies continue to change, and funding support for those with intellectual and developmental disabilities continues to be stretched, it is vital that we expand our support and services to help providers by advocating on their behalf, expand workshops and training opportunities for staff, and take an active stance in fundamental issues such as the fight for increased wages.

The theme of our 36th Annual Conference is *The Road Forward*. This theme not only summarizes providers’ implementation of fee-for-service, but also changes to the conference. The conference location has moved! While we enjoyed our conferences at Bally’s we have decided to take the conference to a new home. Beginning in 2019, the NJ ACP Annual Statewide Conference will be held at Resorts Casino and Hotel in Atlantic City.

Building on the 2018 conference expansion to include a self-advocate program, this year the conference will be two full days with break-out sessions and other events being held on both Thursday and Friday. We are actively pursuing Continuing Education, Continuing Professional Education credits and other specialized training for nursing, social work, CPA’s, HR, transportation, etc. to increase attendance.

With the format change, the afternoon session, formerly known as the Pre-Conference Symposium, will now be our Plenary Session. We believe this more accurately reflects the quality of our speakers and the importance of their presentations.

WE have brought back a MobileApp, but have changed the App Service we are using to CrowdCompass, the Mobile App of Cvent, our event registration system. We are also offering exhibitors LeadCapture, also through Cvent, to make it easier for our exhibitors to document information on attendees as they meet them at the conference.

Stay tuned to learn more details as the Conference nears. For the most up-to-date conference information, please visit the NJACP Conference webpage: [http://njacp.org/the-njacp-36th-annual-statewide-conference/](http://njacp.org/the-njacp-36th-annual-statewide-conference/).

These changes and expansion to our conference are because we recognize the continuing challenges and obstacles our providers face daily. We will work to navigate these hurdles and celebrate accomplishments realized. During these times of change NJACP plays a critical role in supporting and assisting its membership to navigate new legislative and system changes successfully.

I invite you to partner with NJACP by contributing as a sponsor, advertiser or exhibitor. These opportunities will be mutually beneficial as we support our membership while providing you with access to agency staff at all levels within the organization. As important, you are supporting NJACP in its effort to ensure its membership is successful in serving the IDD community.

Please consider participating in these wonderful events while supporting the IDD community through the provision of your services and products.

Sincerely,

Valerie Sellers
